

The extreme advances were Great Northern preferred, Illinois Central and Northern Pacific; 7; Union Pacific; 6; St. Paul and Delaware and Hudson; 5; Reading; Canadian Pacific; 4; Atlantic Coast Preferred; 3; Western Pacific; 2; Great Northern Preferred; 1; Missouri Pacific and General Electric, 1/2 to 3/4, and Southern Pacific, Illinois Pacific, Louisville and Nashville, Great Northern Ore Certificate, National Lead, North American and Union Sheffield Steel, 3/4 to 3/4.

The market closed rather dull, but with prices for most of the transactions in the 3/4 to 1 in the active speculative departments in the final dealings, due to short-taking. Buying was renewed at the reaction and prices came up again.

Additions to former gains reached a point or more in many cases. Union Pacific touched 111 and American Northern rose six points over last night.

**Funds Available by Order
Including This City in
Customs Order.**

WASHINGTON, March 26.—Under instructions recently issued by the Secretary of the Treasury collectors of customs throughout the country are directed to deposit their customs receipts in the regular depositories. This is in place of the so-called sub-treasury offices. These instructions have been recently enlarged by the Secretary, so that the public deposits with national bank depositories in New York City will be at once increased about \$15,000,000 from customs receipts of the present fiscal year. The action was taken on March 4, 1907.

This action is taken with a view to facilitating the redemption of the 4 per cent. bonds of 1907, and also to render available additional funds for the usual

Detective Starts North from Dover, and Intimates Abductors Will Be Caught.

(Special to The Evening World.)
DOVER, Del., March 26.—The return here early to-day of Private Detective Frederick Murphy, who has been working in the Delaware State prison for two weeks, and his hasty visit to the farm of a friend, near the Delaware farm, has given a new impetus to the story of the abduction of the child to the farm, which has remained at the farm only a short time and then returned to the farm from the north without disclosing his actual place of destination.

Murphy's talk of his investigations, beyond the fact that he believed he was on the right track of the abduction, has given out as he expected some developments in the case, but he has been unable to convince the people of Delaware and the country at large that he had not been successful.

When asked if he believed the "Dor" boy was alive, he replied, "No. As the child was taken from the farm, either sold or secreted, Murphy laughed at the suggestion that the child had been kidnapped and is now in the possession of the abductor, and that the child would be brought to justice."

MAKERS OF ARROW COLLARS.

"I don't see how you do it," is the comment sometimes made by customers who realize that we "make good" in respect to every statement we publish. There is no secret about our way of doing it. We are close students of the jewelry business and have been since we started in January, 1877. Of what we have learned since then our customers derive the benefit. We save them money because we manufacture on the same premises with our store a large part of our stock; because we import diamonds, opera glasses, clocks and other things direct; because we buy in large quantities, for spot cash, whatever we do not make ourselves.

We shall not undertake to specify now and here more than a few lines in which we excel all competition, both as to the quality of the goods and the lowness of the price.

Everything in jewelry can be found at Lambert's, and with every sale goes the positive guarantee that the goods are in all respects precisely as represented.

Our long showcases shine with articles appropriate as Easter Gifts—diamond rings, pins and brooches, lockets and chains, vest and guard chains, watches, opera glasses, silverware, etc., etc.

The solid gold from which the Lambert Seamless Wedding Rings are made is first rolled out by hydraulic machinery to give it fineness of grain and susceptibility to high polish. Then the rings, each one a single piece of gold, are cut out by special machinery and shaped by hand to the required style, size, width and thickness. No solder is used. Such rings last forever. No charge for engraving.

ARE YOU GETTING THE SUNBONNET SERIES?

SOME say they are quaint. Some say they are cute. Some say they are "just darling." And everybody has something nice to say about these beautiful little color pictures. They are just the thing to decorate a Den, a Cozy Corner, a Dining Room, a Study or Hallway: The Sunbonnet Babies are a "hit" beyond all question. If you haven't already begun the series, see your newsdealer to-day and arrange it. He will get them for you. They are given free with the **SUNDAY WORLD** each Sunday.

NOTE TO OUT-OF-TOWN READERS.—A 10x15 Gibson Picture will be given outside of Greater New York instead of the "Sunbonnet Series."
